-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 May 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

In response to the 3/8/06 "Decision" the finality of the 11/30/05 Office action has been removed. This Office action is in response to the 5/5/06 remarks.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 17-19, 24-33 and 35-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 10-30986 or JP 5-320616 in view of JP '904.

See the appropriate paragraph of the 11/8/04 Office action.

The preliminary amendments have added the limitations to claim 17 that the indicator changes from colorless to colored. New claim 40 specifies the color tone change occurring by opening of the lactone ring.

'986 teach in the abstract " An electron donative type coloring organic compound ..." which suggest the compound is coloring. Furthermore, because the instant claims are directed to the identical indicators, e.g. flourans, it would have been inherent both have the same colorimetric characteristics.

The abstract of '986 also teaches "... developers can open the rings such as lactone rings ..." which is indistinguishable from claim 40.

Response to Arguments

Applicant's arguments filed 5/5/06 have been fully considered but they are not persuasive.

The 5/5/06 claims state that no amendments have been made to the claims and the claims are listed as a courtesy the Examiner. However, the 5/5/06 claims are not a

copy of the pending 5/11/05 claims. For the purposes of examination, the Office will review the 5/11/05 claims. Clarification and correction are required.

Applicants' state JP '986 teach additional compounds that are not taught by the instant claims. These remarks are not commensurate in scope with the instant claims that have open language and do not exclude addition compounds.

Applicants' state that unexpected results are achieved with the instant invention. Applicants' are encouraged to make the claims commensurate in scope with their remarks. Additionally, a timely and properly filed 1.132 Declaration may be helpful in a showing of unexpected results.

Applicants' state JP'616 does not teach the claimed "dithiocarbamyl coloring assistant". The Office agrees, noting this reference has been rejection under 35 USC 103 in view of JP '904 that does teach the claimed "dithiocarbamyl coloring assistant".

Applicants' state JP'904 does not teach the claimed fluoran containing pigment. The Office agrees and notes JP'904 has been applied under 35 USC 103 as teaching the claimed "dithiocarbamyl coloring assistant" and not the fluoran containing pigment.

Applicants' state there is no motivation to make the above combination of JP 10-30986 or JP 5-320616 in view of JP '904. The Office does not agree and maintains there is sufficient motivation on record.

Allowable Subject Matter

Claims 20-21,34 and 37-39 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The cited prior art fails to teach or anticipate the use of a polyphenyl compound

as a discoloring agent in an indicator composition for plasma sterilization comprising a colorless chromogenic fluoran pigment and a coloring assistant.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
